

ATHENS EUROLYMP WEEK 2010

21 - 26 MARCH

Dear Sailors,

With great success Athens Eurolymp Week 2009 concluded the 1st fase - in a four year term period - of our efforts to give back to this event the prestige it deserves.

The first step has been taken in March 2009: at our Olympic standards facilities, at Faliron Olympic Complex, Marina Delta Falirou, with weather conditions of early summer, 210 sailors from 12 countries gave exciting battles at sea. For the first time we enjoyed the new Olympic women's class, match racing, with the participation of 8 crews from 4 countries.

The next 3 years our priority will be to increase incentives, not only to raise the number of participating sailors and countries, but also to attract great sailors worldwide, who will make even more exciting and competitive Athens Eurolymp Week.

Moreover, our decision to invite for the first time in 2010 Athens Eurolymp Week a class with long history, i.e. DRAGON, will give a new dynamic to the event.

We look forward to seeing you all in Athens .
